Cleveland, March 7 .- One of the heaviest snowstorms of the winter has prevalled in this vicinity for the past two days. It bas snowed almost continuousiy since early Sunday morning. A fierce northwesterly gale has drifted the snow to the depth of three and four feet in many places. During the early hours the electric car service in this city was aimost completely paralyzed.

Weather In General.

Washington, March 7.—The weather bureau officials say that a cold wave is covering the Atlantic coast states. The temperature in Washington feii 12 or 14 degrees to about six above, and north of here the mercury fell 20 to 25 degrees. It will not be any colder in the south than it is now, and just at present it is warmer in New England than south of that section. Later a decided change is predieted throughout New England. The weather will be very severe an along the New Jersey and New England coast. Throughout the west it is now exceedingly coid, the temperature running a little below zero, but it will continue fair through the central portlon of the country, and will warm up a iitte during the next 12 hours. Up in the northwest the mercury is rising rapidiy and stands38above In Montana.

A March Blizzard.

Washington, March 7.-After balmy, bright spring day the people of Washington and the vicinity awakened to find the city again clad in a mantle of snow. About 3 a. m. a blizzard-like snowstorm started and before 9 o'clock the snow was three or four inches on the level, and in places was drifted to a foot or more in deptb. The wind was blowing almost a gale, and the snow in the early morning fell so rapidly as almost to the hearts of the American people was blind pedestrians. The temperature advanced as an argument for her preshad a severe drop from the mlidness of ent alleged efforts at disparagement of the preceding day, but was not extremely low. Street car service was the government departments was greatly crippled by the storm keeping many persons, especially women, in

Georgia Melou Crop Ruined.

Atlanta, March 7.—The heavy rain of Saturday and the cold wave of Sunday were followed by bigh winds and snow in many parts of the state. SUGAR CONSUMERS.

Several Millions Tons of Sweetness Are Used Annualty.

Washington, March 7.-The results of an exhaustive investigation of the use of sugar as food are glvén in a buletin soon to be issued by the department of agriculture.

The bulletin attributes the great popularity of sugar to its pleasant flavor together with what is now known of its nutritive value. It draws the conclusion that "people eat as much sugar as they can get, and the consumption of sugar in different countriesls, ln general, proportional to their wealth." The English-speakin people are said to be the largest sugar users. England consumed in 1895 86 pounds per capita and the United States 64 pounds, although still larger amounts are said to be consumed in sugar growing districts, largely in the form of ripe cane. Between 7,000,000 and 8,-000,000 tons are used annually in the different countries of the world.

Discussing the practical food values, the bulletin stamps a meally boiled potato or a lump of laundry starch, are in fact, very near akin to a lump of sugar. The conclusions summed up are: The unwholesomeness of sweetened food and their utilization by the system is largely a question of quantity and concentration.

The nutty flavor of grains and the natural taste of mild frults is concealed by the addition of large quantities of sugar.

Sugar, while a useful and valuable food is a concentrated one, and therefore should be eaten in moderate quantitles and is best fitted for assimilation by the body when supplied with other materials which dllute it or give it the necessary bulk.

THE gold bug organs are again circulating the report that Col. W. J. Bryan is to be shelved by his party. They would undoubtedly rejoice if convinced the report was true.

THE party that promotes and fosters truets, combines, syndicates and such like, as does the Republican party, is the enemy of the Constitution, the enemy of the people and the enemy of civil liberty.

THE small fry among Republicans show the cloven foot of the party hy putting themselves forward as apoligists for trusts and combines on every occasion. They well know that such combines keep the party in power.

THE fertilizer trust is the latest combine gotten up to gonge the farmer. It is capitalized at \$35,000,000. Well, the farmers don't have to use fertilizers, and it will take them only a year or two to knock out the gang of robbers,

The announcement that Secretary Alger's \$40,000 junket to Cuba and Porto have something important to report to Rico had been declared off was a great the league upon his return. The latter disappointment to those Congressmen body will meet inside of the next ten who were counting on a fine pleasure days." trip at the country's expense. It is but just to say that a number of Senators and Representatives declined invitations. Represesentative Sulzer declined making the trip and said: "When I go to Cuba I will go on my own account and at my own expense, and when I get there I will be the guest of the Cuban Republic."

COL. ROBERT G. INGERSOLL said to The Enquirer man while at the Grand that the "attempt to degrade Gen. Miles, the greatest soldier in America, is infamous. Miles, whom I know well, is a kind man, considerate of his soldiers and brave enough to be prudent. Some men, like Custer, are brave without prudence. Miles cabled the War Department when he arrived in Puerto Rico that he could get an abundance of fresh beef at 6 cents a pound net, but they made him take 500 000 pounds of canned stuff unfit for food, that had cost the Government 12 cents per pound."

The "emt almed" beef contractors, course, had to be taken care of, no matter how much the soldiers suffered or how much the Government was robbed. The gang are now after Gen. Miles.

New Point in Insurance.

[Kansas City Cor. St. Louis Globe-Democrat.] A point of law without a precedent, so far as lawyers here know, is raised in the suit filed in the Circuit Court to-day by E. J. Sherlocks, attorney for Mrs. Maud Frost, against the Modern Woodmen of America. It is whether or not an unmarried man may insure his life in favor of another man's wife, so that she may collect the insurance at his death. Charles E. Gant was insured for \$2,000 in the Woodinen when he committed suicide last July. His policy was payable to Mrs. Frost, his "fiancee," but she was the wife of another man, and the Woodmen say they would not pay it because a married woman could not legally be the fiancee of a single man. Mrs. Frost explained that she had not lived with her hushand for several years, and that she and Gant wore engaged to be married as soon as she got a divorce.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that sho slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamnick & Co., of Shelby, N. C. Trial bottles free at J. J. Wood & Son's drug store. Regular size 50c. and \$1 Every bottle guaranteed.

FOR THE FARMER.

Prize Tobacco Yield Reported From Grant County-Other Items of Interest.

Joshua Grnel, of Dry Ridge, claims that he broke all records last seasou in the raising of tobacco in Grant County, says the Williamstown Courier. On a measured acre of land, which he had fertilized well, he raised 1,200 sticks of tobacco which weighed 2,460 pounds. Mr. Grnel sold his tobacco to Liggett & Myers, at 7 cents per pound. It is very few acres of land from which the best farmer under ordinary circumstances, can make \$172.80 in one year, adds the Courier.

William Styles, local purchasing agent for Liggett & Myers, purchased about 30,000 pounds of tobacco on the McAtee farm near Fern Leaf last week, at ahout Sc. per pound all around, and 40,000 from Powell B. Owens at 74 cents all around. John Worthington bought William Cutright's crop at Fern Leaf, about 8,000

pounds, at 81 cents. Carry M. Dovore and Peter Brown, of near Dover, delivered their crop of 7,000 pounds to Ripley dealers last week for

which they received Sc. a poind. The Stanford Journal notes the sales of several lots of corn at \$1:50 per barrel, and five car loads of 1,400 pound cattle at 41 to 5 cents.

Bloodhounds

The gentleness of bloodhound disposition is probably accounted for by their not having been used to hunt and kill prey. One of the most ancient anecdotes of these dogs attributes the capture of a fugitive to the use of his own bloodhound. The name itself is probably a modern one, based on a vulgar error that the dogs only followed persons who were "red handed" from homicide or who had about them the smell of recently killed shoep. The ancient name was lyme dog or talbot, which latter appears to have been a white variety of bloodhonnd.

The Cuban bloodhounds, which were nsed for hunting slaves by the Spaniards and were imported into Jamaica, were not bloodhounds at all, but a cross between the mastiff and bulldog, or perhaps the ''dogue'' of Bordeaux. They were brindled, prick eared, and doubtless horribly savage. They were, however, used as "police," and, like the bloodhounds on the border, were maintained in every parish in Jamaica, where it was the duty of the church-wardens to keep them at the expense of the community.

Some of these dogs were kept in London during the early days of the zoological gardens. The stories of their ferocity are probably not exaggerated, though Lord Balcarres, who imported 200 of them into Jamalca to aid in snbduing the maroons, never used them. He frightened the negroes into submission by circulating the stories current about the dogs. —London Spectator.

RIVER FALLING.

Highest Point Reached, Here Fifty-four Feet—Tuesday a Rough Day on the Water.

There is rejoicing over the fact that the river is falling. The highest stage reached here was fifty-four feet. It began to recede last night, and at 9:30 this morning the marks showed 53.8 feet.

The rise from Pittsburg will keep it from receding very rapidly for a few days, and may cause it to rise again somewhat here.

The Virginia passed down Tuesday afternoon at 4 o'clock, nearly a day behiud time. It was after dark last night before the Nisbet passed down. The hard wind had delayed both packets. Tuesday was one of the roughest days on the river for some time. The tow boats most all had to tle up.

The towboat Dave Wood, windbound at the mouth of Limestone Tuesday and last night, resumed her trip this morning. Nisbet for Pomeroy to-night.

ON THE TALBOI. Remains of Lord Herscheil Placed Aboard

the English Warship. New York, March 7.—The special train from Washington having on board the body of Lord Hersehell arrived at the Pennsylvania depot in Jersey City at 7:40 a. m., it was met by an escort of marines from the British cruiser Taibot and an equal number of American marines under comriand of Lieutenant Keliy. The remains were in charge of C. W. Cartwright , secretary of the joint high commission, and H. Williamson, Lord Herseheli's private secretary. The body was transferred to the Narkeeta, which steamed to where the Taibot iay at anchor off Eills island, and the remains of Lord Herschell were transferred to the Talbot. Among those who waiked behind the body from the car to the ferry boat were Commodore John W. Philip, commandant of the Brookiyn navy yard, and Lieutenant

Commander Keliy. M'NAUGHTON INDICTED.
